

## **Concerto Networks Adds International Wireless Expert to Board of Advisors**

SAN DIEGO, California – November 5, 2003 - Concerto Networks™, an emerging provider of professional, corporate style Information Technology (IT) services for small and medium sized businesses, has appointed Mr. Tom Munro to its Board of Advisors.

"Concerto Networks is one of those businesses that just makes sense. People with small businesses and home offices need high quality computer support, and many technical professionals can benefit from the credibility, training, and support of a franchise organization. Concerto Networks is creating a brand name that benefits both groups," commented Munro.

Mr. Munro has over 22 years of experience in both finance and technology. Most recently, he was President of Wireless Facilities, Inc. (WFI) a San Diego based company. WFI ([www.wfinet.com](http://www.wfinet.com)) is a global leader in the design, deployment, and management of wireless mobility and broadband wireless networks. During his tenure, WFI completed major projects with companies such as Telecorp, Triton PCS, Metricom, and Siemens, allowing WFI to capture over 30% of wireless installation market.

"Tom is highly regarded as a senior-level business, finance, and technical executive with an excellent track record of success start-up companies. His business and technical background will benefit Concerto Networks as the Company expands its franchise network throughout the nation. We are extremely pleased to add a visionary such as Tom to our team," stated Ray Hivoral, Concerto Networks' Founder and CEO.

Mr. Munro was CFO and later President of WFI until his retirement in February 2003. Prior to joining WFI, Mr. Munro was founder and CEO of @Market, a retail sporting goods website. From 1994 to 1995, he served as CFO for Precision Digital Images, Inc., a Seattle-area start-up firm involved in the development of leading edge image processing devices and software. As a key member of their management team and board of directors, he was responsible for raising seed capital for the firm, as well as implementing financial and operational controls. Mr. Munro spent 13 years with MetLife Capital Corporation, where he served as CFO and a Director. Mr. Munro sits on the BOD of Pac-West Telecom, Inc., a provider of integrated communications services. Mr. Munro holds a bachelor's degree in business administration and an MBA from the University of Washington. He has co-authored two college level text books on computer programming.

Concerto Networks' nationwide franchise system provides businesses with outsourced computer, network, and communications products and services. The franchises are independently owned and operated by experienced, mobile IT professionals who are committed to serving the needs of small and medium sized businesses through *Consistent Quality Service™*. The Company's management team consists of some of the most experienced professionals in the franchise and technology industries.
