CONCERTO NETWORKS® ANNOUNCES FURTHER INTERNATIONAL EXPANSION BUSINESS TECHNOLOGY FRANCHISE AWARDS ITS SECOND INTERNATIONAL MASTER FRANCHISE LICENSE

August 25, 2005 – San Diego, CA – Concerto Networks, a business technology franchise company, announced international expansion with the award of its second international master franchise license. Antonio Tutusaus, the new Concerto Networks master franchise owner, will officially launch his business in September 2005 to provide complete office technology solutions for small- and medium-sized businesses (SMBs) throughout Spain.

"I am very excited to be the owner of Concerto Networks' first international franchise in Spain. I am enthusiastic about the growth the company has experienced in the United States and their first international expansion into New Zealand earlier this year. I feel it's an extraordinary opportunity to be bringing such a strong brand and valuable service offering to Spain," said Tutusaus. "I look forward to helping grow the brand nationwide and beyond. And with all the support I've received from Concerto Networks, I'm ready to get started right away."

The launch in Spain is part of Concerto Networks' aggressive plans for international growth in 2005 and into 2006. The company has identified target markets in Australia, Canada, South America and Europe as priorities for franchise development in the coming year. Any countries already equipped with strong infrastructures to support advanced cellular communications are potential markets for establishing Concerto Networks franchises.

"By providing consistent, high-quality business technology solutions to SMBs, Concerto Networks' franchise system is addressing a need that exists all around the globe, creating a wide-open opportunity for international growth" said Raymond Hivoral, Founder and CEO of Concerto Networks. "I am pleased to award Antonio with the Spain master franchise. His wealth of experience in both technology and small business ownership makes him the ideal candidate to help grow the Concerto Networks brand at the international level."

Including the Spain Master Franchise, there are currently 40 Concerto Networks franchise licenses awarded in 16 U.S. states and New Zealand. Master franchise, area development and single and multi-unit franchise licenses are available for purchase.

About Concerto Networks®

Concerto Networks, Inc. is a national franchise business providing professional, consistent-quality computer and business technology solutions to small- and medium-sized businesses (SMBs), serving a critical function for this rapidly growing market. Concerto Networks goes beyond simple troubleshooting and repair, providing the same holistic approach to IT support and director level management enjoyed by large companies, while offering significant savings and value to SMBs. The company's model is to build a national business technology solutions network with the expertise, processes, systems and support necessary to provide superlative service to SMBs. Franchises are independently owned and operated by experienced professionals equipped with the latest diagnostic hardware and software for providing on-site service.
