

Executive Biography

Eric Tobias,
President, CFO, CTO, Director

Eric Tobias joined Concerto Networks® in 2003 as the President of Global Services, Chief Financial Officer, Chief Technical Officer, and Director. In late 2004, he also assumed the responsibilities for Franchise Operations. His goals are to grow Concerto Networks' franchise network, identify growth markets, forge new partnerships, and to drive the long-range strategic technical direction of its Global Services division.

Tobias brings more than 25 years of experience in the high-tech electronics industry to Concerto Networks. He has overseen, as well as performed significant "hands-on" work in all aspects of business and business management. He is most recently credited with co-founding QThink, an industry-recognized leader in complex semiconductor chip design and integration, which provided full design solutions for clients in high-speed networking, communications, multimedia, medical, military and high-speed computing markets. As co-founder and CEO/CFO of QThink, Tobias defined and consistently promoted the company's vision and business goals, defined and drove the company's proprietary IC design implementation technology, continuously expanded the business plan around the company's successes, and influenced many areas of the company's philosophies, operations, and strategic partnerships. Preceding QThink, Tobias held various senior management and executive level positions with Cadence Design Systems, Inc., Applied Micro Circuits Corporation (AMCC), and Amdahl Corporation.

Tobias earned a Master of Science degree in Electrical Engineering from Santa Clara University and a Bachelors of Science in Chemical Engineering from UC Berkeley. He holds two significant U.S. patents related to semiconductor device manufacturing technology. He is also a member of CommNexus San Diego, the San Diego Regional Chamber of Commerce, and the American Electronics Association.

About Concerto Networks®

Concerto Networks, Inc. is an international franchise business providing professional, consistent-quality computer and Information Technology (IT) solutions to small- and medium-sized businesses (SMBs), serving a critical function for this rapidly growing market. Concerto Networks goes beyond simple troubleshooting and repair, providing the same holistic approach to IT support and management enjoyed by large companies, while offering significant savings and value to SMBs. The company's model is to build an international business technology solutions network with the expertise, processes, systems and support necessary to provide superlative service to SMBs. Franchises are independently owned and operated by experienced professionals equipped with the latest diagnostic hardware and software for providing on-site service.
